

CEREZO OSAKA SAKAI LADIES

The team was launched as the Cerezo Osaka women's team under the name of Cerezo Osaka Ladies U-15 in 2010. It aims to be a development-based club that independently trains and strengthens players. In last year's Nadeshiko League Division 1, the team's young players grew immensely and achieved a third-place finish in the table. In the 2022 season, the team once more aims to provide enjoyment to spectators and play the kind of football that makes people want to return to the stadium again and again. Aiming to become "champions", we will continue to challenge for the heights.
